## KEY ACHIEVEMENTS

#### Sandeep Bansal

Created a dynamic website for news and political events with features to add, update, delete, and organize content. Improved user experience with a simple interface for easy access to news, events, and contact options. Focused on smooth navigation and efficient content management.

#### Anudanit SamajKalyan

Worked on the **Anudanit Vidyalay SamajKalyan** government project, handling multiple roles like admin, teacher, student, and super admin. Developed and managed various features, including user management, reports, and system functionalities. Focused on creating a smooth, efficient, and user-friendly experience for all stakeholders.

#### Student Form - CRUD

This project is built using **.NET MVC** technology. It allows users to **add, update, and delete student details**, including uploading photos, entering basic information, adding parent details, and specifying interests.

#### Portfolio

Created a responsive portfolio website using **HTML, CSS, and Bootstrap** to showcase projects, skills, and experience. Added **jQuery** for interactive elements, ensuring a professional and user-friendly experience.
